Examiner's Statement of Reasons for Allowance

1. Claims 1-4, 6-11 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The prior art made of record fails to anticipate or make obvious the claimed invention. Specifically, the prior art fails to teach, in combination with the remaining elements as recited in claims 1, and 6.

The present invention is directed to an antenna device.

Regarding claims 1, the Prior art fails to specifically teach that, a first delay section connected to the other end of the first linear element and one end of a third linear element for delaying the phase of an antenna current by a given phase, a second delay section connected to the other end of the second linear element and one end of a fourth linear element for delaying the phase of an antenna current by the same phase

as that of the first delay section, and a reflector placed at a given distance in parallel to a plane, on which the linear elements have been placed.

Regarding claim 6, Prior art fails to specifically teach that, the first delay section and the second delay section, which have been placed at each of opposite apex pairs of the diamond shape to delay the phase of an antenna current, the feeding section, which have been placed on either of another one of the opposite apex pairs of the diamond shape, for feeding power to the slot elements, a termination part formed at the other of another one of the opposite apex pairs of the diamond shape, for terminating the slot elements, and the reflector placed beyond the substrate at a given distance from and in parallel to the conductor layer.

Claims 2-4, and 10-11 are allowed for depending on claim 1.

Claims 7-9 are allowed for depending on claim 6.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
